

Dear Guest

Thanks very much for the booking!!! We very much look forward to seeing you....here's a few little facts about the pods and Hollington Park Glamping to help you with what you may need to bring to make your stay as easy and great as it possibly can be!!!

Each pod has a double bed with bedding included. Under the bed there is storage which holds 2 x fold out z beds with bedding included for 2 extra children 12 or under. There is also space for storing bags etc. The pods have electricity, so are heated and contain a fridge and kettle and an extra fan heater just in case it gets a little chilly over the winter months. Below is a list of what each pod contains, so you know what you have to bring and what you do not!!! The site has 2 hot shower and wash rooms, and 2 flushing loos, containing loo roll. Everything on site is drinking water. For those that like tramping about in the countryside, I would most definitely bring wellies. The site has low lighting so as not to disturb any nocturnal wildlife so a torch is a must!!! If you wish to use the BBQ or firepit, bring some dry wood, fire lighters and charcoal! There are lots of candle holders throughout the site, you will need to bring some tea lights if you wish to use those.

4 knives, forks, spoons and teaspoons.

wooden cooking spoon

tea pot

4 cups and saucers

4 small plates

4 large plates

4 bowls

Outside bowl

outside tray

4 outside small plates

4 outside large plates

undercover seating area containing double sofa and 2 chairs

What to bring!

Your personal belongings
Suitable clothing and footwear for all weather
Torch
What you would like to eat and drink
Charcoal
Tea lights, there are lots of candle holders around the site

We are a little tricky to find so, take the Woolton Hill turning which is signposted the Rampant Cat from the A343. Follow for about ½ a mile and after the junior school, as you come to the infant school on the left the road bends sharply right, take the left hand turning called Church Road which is on the bend. Follow the road for about half a mile until the road bends sharply right to Eastend and forks left to Hollington, take the left hand fork but stop immediately, you will see some big wrought iron gates on the left saying Hollington House. Go through the gates and after about 120 meters you will see some featherboard fencing on the left and a wooden gate, go through the gate and park on the drive....I'll come and greet you! do not turn before this even if the satnav tells you to as you will end up on a very bumpy tractor track and you may get stuck!

We look forward to seeing you soon!

Claire and the gang x
